EQUIPPING COMMUNITY COLLEGES FOR SUCCESS

FIND OPEN EDUCATIONAL RESOURCES ON SKILLSCOMMONS

SkillsCommons (<https://www.skillscommons.org>) offers thousands of training resources, including curriculum that leads to industry-recognized credentials in advanced manufacturing, information technology, healthcare, energy, and many other industries.

WORLD'S LARGEST OER PROJECT

While there are multiple repositories of Open Educational Resources, SkillsCommons is the world's largest OER project featuring job-driven workforce development materials, with more resources being added continually.

Designed and managed by California State University, SkillsCommons is funded through the US Department of Labor's Trade Adjustment Assistance Community College and Career Training grant program. The Open Educational Resources it

contains were developed by TAACCCT grantees.

Providers of workforce training can save time and money by using the OER on SkillsCommons, which is available under a Creative Commons license that allows anyone to use and adapt the materials.

..... MAKEOVER STRATEGIES

Materials on SkillsCommons can be customized to the needs of training providers who wish to adapt them using "Makeover" strategies. SkillsCommons' CONNECT Center provides examples and strategies for institutions, instructors, and instructional designers to transform the OER so it aligns with their goals more effectively.

May 2016–March 2017

Nearly **300,000** Downloads as of March 2017

Over **8,000** Uploads as of March 2017

EXAMPLES OF AVAILABLE CURRICULUM

- Advanced Manufacturing Technology Certificate Program
- Mechatronics Pathway

- Pharmacy Technician Certificate Program
- Medical Lab Technician Clinical Practicum

- Advanced Coding Program
- Cyber Technology Certificate Program

- Sustainable Science Management Course
- Green Energy Systems Course
