SkillsCommons

TECHNOLOGY PARTNER

ENHANCE
YOUR OER CONTENT
with Monarch Media

Monarch Media develops inspired and innovative eLearning and workforce improvement solutions that can elevate OER content to the next level.

Let Us Be Your SkillsCommons Guide

The U.S. Department of Labor's Trade Adjustment Assistance Community College and Career Training (TAACCCT) grant program is a major $1.9 billion investment to increase the ability of community colleges to address the challenges of today's workforce.

From this investment, a comprehensive collection of workforce-related Open Educational Resources (OER) has been created by over 700 community colleges across the nation.

SkillsCommons facilitates partnerships between grant recipients and technology providers like Monarch Media. As experts in eLearning development for more than 20 years, Monarch Media can guide your next steps in transforming existing materials into a robust learner-centered curriculum that accelerates and improves the development of job-driven workforce development skills.

Services

COURSE AUTHORING AND CURRICULUM DEVELOPMENT

Utilize our instructional design expertise to help you transform standard open educational resources into robust interactive content, courses, and curriculum that help students master new skills, behaviors, and competency.

LEARNING SYSTEMS DESIGN AND DEVELOPMENT

From strategy consulting to technical implementation, our team has experience developing award-winning learning systems using cost-effective open source solutions.

LEARNING OBJECT DEVELOPMENT

From animation to simulations to behavior modeling, we can help create digital learning content objects that can be used in different learning context.

An OER Makeover

Developing Interactive Self-Paced Lessons

Transforming Microsoft Word lesson plans into an interactive self-paced lesson.

The original content was developed for classroom instructors. For the transformation, instructional designers added context and remediation to allow nursing students to complete the lesson independently. Interactive exercises, embedded video, and online activities all contribute to a highly engaging learner experience.

Skills
- **Instructional design**
- **Graphic Design**
- **Development**
- **Multimedia Services**

Features
- **Responsive design**
- **Real-world practice examples**
- **Environmentally relevant videos**
- **In-line helpful hints and mini-practice modules**
- **Exploratory linear and non-linear navigation**
- **Course completion tracking**
