

(Re)Using Free Online Educational Resources on the [SkillsCommons.org](https://www.skillscommons.org) Repository: Part I – Introduction

U.S. Department of Labor
Employment & Training Administration

November 3, 2016

Participant Poll

Which best describes your organizational affiliation?

- Community or technical college
- Other educational institution
- Local workforce development entity
- Other non-profit workforce training entity
- For-profit workforce training entity
- Other (please enter in chat box)

Participant Poll

Which best describes your relationship to TAACCCT Grants?

- I work(ed) on a TAACCCT grant
- Others at my organization have/had TAACCCT grant(s)
- We don't have a TAACCCT grant
- What is TAACCCT?

Participant Poll

Are you an Eligible Training Provider under WIOA in one or more states?

- Yes
- No
- I don't know

Which best describes your experience with OER

- I have used OER
- I would like to learn how to use OER
- What is OER?

Presenters

- **Cheryl Martin, Moderator**
 - Program Manager, TAACCCT Grants
- **Rick Lumadue & Gerry Hanley, Presenters**
 - SkillsCommons (California State University-MERLOT)
- **Maria Fieth, Presenter**
 - Project Manager, “Consortium for Healthcare Online” (CHEO) Round 2 Grant Project
- **Kathy Spada, Presenter**
 - Project Manager, “Intentional Networks Transforming Effective and Rigorous Facilitation of Assessment, Collaboration, and Education” (INTERFACE) Round 3 Grant Project
- **Sarah Stubblefield, Presenter**
 - Project Manager, “Industrial Automation Manufacturing innovative Strategic Training Achieving Results” (I AM iStar) Round 4 Grant Project

SkillsCommons.org

- **Rick Lumadue**

- Program Manager and Grantee Relations, SkillsCommons.org

- **Gerry Hanley, Ph.D.**

- Director, SkillsCommons.org and PI for TAACCCT repository cooperative agreement
- Assistant Vice Chancellor, Academic Technology Services, California State University, Office of the Chancellor
- Executive Director, MERLOT
- Director, Center for Usability in Design and Accessibility at California State University, Long Beach

Trade Adjustment Assistance Community College and Career Training (TAACCCT)

TAACCCT is an investment of

\$1.9 BILLION
AWARDED OVER 4 YEARS

impacting 62% of the nation's community colleges.

.....

GOAL

Design innovative and effective programs that address specific industry needs and lead to improved learning, completion and career outcomes for TAA-eligible workers and other adults.

Agenda

- What is OER and why should I care?
- Demonstrate the ease of finding OER in SkillsCommons to reuse
- Showcases of OER reuse
- Get connected with people, technologies, and resources that you can leverage and help your project achieve its goals
 - SkillsCommons CONNECT Center
 - SkillsCommons Makeover Strategy
 - SkillsCommons IMPACTCommunities
 - Additional OER Resources

What is OER and Why Should I Care?

Open Educational Resources (OER)

SkillsCommons is the world's largest OER project featuring job-driven workforce development materials!

Anyone can freely:

- Reuse
- Revise
- Retain
- Redistribute
- Remix

SkillsCommons: TAACCCT Library of Free OER

Types of OER Reuse

Revise & Reuse Open Educational Resources

Home > Revise & Reuse Open Educational Resources

[Support Center Home](#)

The CC BY Creative Commons license on SkillsCommons materials provides opportunities for other grantees, other institutions and other users to revise and reuse the materials in a variety of ways to create "derivative works" that could better serve the needs of different learners in different contexts with different technologies.

Guides and Use Cases for Reuse

FORMS OF REUSE AND DERIVATIVE WORKS: UNDERSTANDING THE POWER OF THE CC BY LICENSE

This user guide provides a wide range of illustrations of reuse and derivative works that can help you realize the reusable value of your materials.

USE CASE FOR A CAMPUS PROGRAM MANAGER REUSING MATERIALS IN SkillsCommons

This user guide provides you a story ("use case") about how a community college program manager needs to create a workforce development certificate in foundational math skills for a local construction company and the use of materials in SkillsCommons.org to achieve their goals quickly and inexpensively.

GUIDE FOR ATTRIBUTION OF CC-BY LICENSED MATERIAL FOR DERIVATIVE WORKS

This guide provides you with a template and examples for proper attribution of CC-BY licensed material that is a derivative of another's material.

- [OPEN Attribution Builder](#) is a free online Attribution Builder available from Washington State Board for Community and Technical Colleges (SBCTC). SBCTC built this Attribution Builder as part of their involvement with Creative Commons in providing support for TAACCCT grantees.

What is Reuse?

Definition

Reuse "as is" = no modifications were made to the original material(s)

Example:

Northwest State Community College in Ohio is reusing this course "as is" for students struggling with basic computer literacy. The Ohio Workforce Investment Board (WIB) is also using this course "as is" to assist people who are looking for employment, but lack basic computer skills. No changes or modifications have been made to this course.

Original Material: [Basic Computer Skills Course](#)

Reused Material: [Basic Computer Skills MOOC](#)

Reuse Showcase:

Looking for more examples of Reuse? Check out the [Reuse Showcase](#)!

The screenshot shows a web browser displaying a MOOC page for 'Basic Computer Skills MOOC'. The page includes a navigation bar with 'Learn', 'This Course', 'Your Course', 'Computer Skills Course', 'Usage & Fees', and 'Feedback'. Below the navigation bar, there's a section for 'Basic Computer Skills MOOC' with a 'Get Started' button. A table titled 'Get Started' shows the course structure with columns for 'Time' and 'Complete'. The table lists two main sections: '1. Use Computing Devices' and '2. Navigate an Operating System', each with sub-items and their respective times.

Get Started	Time	Complete
Introduction	3:00	
1. Use Computing Devices		
Use the Mouse	21:00	
Identify Computer Devices	21:00	
Create a Computer and Printer	24:00	
Use Computing Devices Test	10:00	
2. Navigate an Operating System		
Navigate the Windows Operating System	20:00	
Use Windows and the Windows 7 Operating System	20:00	
Use Personalization Features & Access Software Programs	20:00	
Navigate an Operating System Test	10:00	

What is Derivative Reuse?

Definition

Derivative Reuse = Edits to the content, including branding, scope, and sequence, have

[Back to Showcases](#)

Explore our Showcase of SkillsCommons material that has been reused by others. These showcases demonstrate how you can reuse the OER materials created by TAACCCT grant recipients and others.

What is Reuse?

The CC BY Creative Commons license on SkillsCommons materials provides opportunities for other grantees, other institutions and other users to revise and reuse the materials in a variety of ways to create "derivative works" that could better serve the needs of different learners in different contexts with different technologies.

Examples of Reuse

1. Basic Computer Skills MOOC
2. Marketing Outreach Plan
3. Outside Services Contract Monitoring Tool
4. Records Retention Guidance
5. Subject Matter Expert Review

1. Basic Computer Skills MOOC

The material was created by [Northcentral Technical College](#) and reused by [Northwest State Community College](#).

Northwest State Community College in Ohio is reusing this Basic Computer Skills MOOC that was submitted to SkillsCommons by the [Intentional Networks Transforming Effective and Rigorous Facilitation of Assessment, Collaboration, and Education \(INTERFACE\)](#) project. This course is helpful to students struggling with basic computer literacy. The Ohio Workforce Investment Board (WIB) is also using this course "as is" to assist people who are looking for employment, but lack basic computer skills. No changes or modifications have been made to this course.

Original Material: [Basic Computer Skills Course](#)

Reused Material: [Basic Computer Skills MOOC](#)

2. Marketing Outreach Plan

The material was created by [Jefferson Community College](#) and reused by [Northwest State Community College](#).

The OER reused was a program management resource from [Health Professions Pathways Consortium \(H2P\)](#) a Round 1 Grant. The [I AM Star](#) project was able to save time and money by using this material as part of their grant management strategy.

SHOWCASE OF OER REUSE

Experience of TAACCCT Grantee's
Reuse of existing OER

Showcase of OER Reuse

- **Maria Fieth**

- Project Manager, “Consortium for Healthcare Online” (CHEO) Round 2 Grant Project

CHEO Grant Project

Showcase of OER “Derivative” Reuse “OpenStax College OER Anatomy & Physiology Textbook.pdf”

The U.S. Department of Labor’s [Trade Adjustment Assistance Community College and Career Training \(TAACCT\) grant program](#) has created an online library called [SkillsCommons](#) containing free and open learning materials and program support materials for job-driven workforce development. The Open Educational Resources (OER) are produced by community colleges across the nation and can be found, reused, revised, retained and redistributed by individuals, institutions, and industry.

[SkillsCommons.org](#) is designed and managed by the [California State University](#) and its [MERLOT program](#) for the U.S. Department of Labor’s TAACCT grant program under a four-year cooperative agreement. If you are interested in the materials, the CSU-MERLOT dedicated team of librarians, educators, and developers are here to assist not only TAACCT Grantees, but anyone who is using and reusing OER.

Here is an example of how students taking a Basic Human Biology Course were able to **save \$200-\$300** on a textbook because a TAACCT Grantee reused an [OpenStax](#) Textbook:

Project Name: “Consortium of Healthcare Education Online (CHEO)” (Round 2):
<https://www.skillscommons.org/handle/taacct/43>

Lead Institution: Pueblo Community College
Project Director: Maria Fieth, Pueblo Community College
email: mariafieth@gmail.com

Project Goals: To develop or transition identified allied healthcare courses and programs into hybrid and/or online formats.

Strategy to Achieve Goals: Some of the programs will be new and others currently provided in the face-to-face format only, will offer students the opportunity to acquire stackable certificates, allowing them to make progress in their profession as working adults while pursuing academic credentials. CHEO partners will develop new lab exercises using the North American Network of Science Labs

SHOWCASE OF OER REUSE

Experience of TAACCCT Grantee's OER
for Reuse Hosted on SkillsCommons

Showcase of OER Reuse

- **Kathy Spada**

- Project Manager, “Intentional Networks Transforming Effective and Rigorous Facilitation of Assessment, Collaboration, and Education” (INTERFACE) Round 3 Grant Project

INTERFACE Grant Project

Showcase for OER Reuse: "Basic Computer Skills Course (BITS)"

The U.S. Department of Labor's [Trade Adjustment Assistance Community College and Career Training \(TAACCCT\) grant program](#) has created an online library called SkillsCommons containing free and open learning materials and program support materials for job-driven workforce development. The Open Educational Resources (OER) are produced by community colleges across the nation and can be found, reused, revised, retained and redistributed by individuals, institutions, and industry.

[SkillsCommons.org](#) is designed and managed by the [California State University](#) and its [MERLOT program](#) for the U.S. Department of Labor's TAACCCT grant program under a four-year cooperative agreement. If you are interested in the materials, the CSU-MERLOT dedicated team of librarians, educators, and developers are here to assist not only TAACCCT Grantees, but anyone who is using and reusing OER.

Here is an example developed by a TAACCCT Grantee for reuse:

Project Name: "Intentional Networks Transforming Effective and Rigorous Facilitation of Assessment, Collaboration, and Education (INTERFACE) (Round 3) <https://www.skillscommons.org/handle/taaccct/246>

Lead Institution: Northcentral Technical College District (NTC)

Project Director: Kathy Spada, Northcentral Technical College District (NTC)
Ph: 715-803-1747; email: Spada@ntc.edu

Project Goals: To develop, improve, and expand adult educational training pathways to careers in information technology-related occupations.

Strategy to Achieve Goals: A statewide set of core competencies was developed for the computer literacy course. The competencies were established during a stakeholder meeting in April 2014. In addition to the 16 WTCS college representatives, WTCS system administrators, INTERFACE project administration, and workforce partners were also present at the [competency planning meeting](#) and contributed to the development of course competencies. [The meeting was facilitated by a representative of the Worldwide Instructional Design System \(WIDS\)](#). In total, the meeting resulted in the establishment of 11 core competencies for the basic computer skills for college success course.

SHOWCASE OF OER REUSE

Experience of TAACCCT Grantee's Reuse
of OER Hosted on SkillsCommons

Showcase of OER Reuse

- **Sarah Stubblefield**

- Project Manager, “Industrial Automation Manufacturing Innovative Strategic Training Achieving Results” (I AM iStar) Round 4 Grant Project

IAM iSTAR Grant Project

Showcase of OER “Derivative” Reuse: “Records Retention Guidance”

The U.S. Department of Labor’s [Trade Adjustment Assistance Community College and Career Training \(TAACCCT\) grant program](#) has created an online library called [SkillsCommons](#) containing free and open learning materials and program support materials for job-driven workforce development. The Open Educational Resources (OER) are produced by community colleges across the nation and can be found, reused, revised, retained and redistributed by individuals, institutions, and industry.

[SkillsCommons.org](#) is designed and managed by the [California State University](#) and its [MERLOT program](#) for the U.S. Department of Labor’s TAACCCT grant program under a four-year cooperative agreement. If you are interested in the materials, the CSU-MERLOT dedicated team of librarians, educators, and developers are here to assist not only TAACCCT Grantees, but anyone who is using and reusing OER.

Here is an example of OER reuse by a TAACCCT Grantee:

Project Name: Industrial Automation Manufacturing innovative Strategic Training Achieving Results (IAM iStar) (Round 4) <https://www.skillscommons.org/handle/taaccct/1442>

Lead Institution: Northwest State Community College

Project Director: Sarah Stubblefield, Northwest State Community College
Ph: 419-267-1512; email: sestubblefield@northweststate.edu

Project Goals: To develop a program focused on industrial automation training and designed based on the needs of local employers. The program will offer industry recognized certificates and associate degrees that lead to high-wage, high-skill employment.

Strategy to Achieve Goals: A process for evaluating Prior Learning and a hybrid instructional delivery model will be developed focused on Advanced Manufacturing programs shortening the time to

SkillsCommons IMPACT*communities*

Home > SkillsCommons IMPACT*communities*

[Back to Connect Center](#)

What Are IMPACT*communities*?

IMPACT*communities* are comprised of TAACCT grantees, community colleges, industry sectors, professional organizations, national/state/local workforce development programs, and others interested in leading and participating in essential and sustainable initiatives that advance workforce development programs. IMPACT*communities* evolve as collaborative problem solving processes to common challenges found in higher education today.

Our goal for the IMPACT*communities* is to enable affordable innovations in workforce education and workforce development programs to be easily and widely adopted and adapted by teachers, learners, industries, and professional organizations. This focus is designed to help scale the benefits of the US Department of Labor's TAACCT investment in workforce development programs at community colleges across America.

SkillsCommons is leading these efforts as part of its sustainability strategy for TAACCT and will be leveraging the extensive experience and technology infrastructure of MERLOT as part of our strategy.

Learn more about our [SkillsCommons Sustainability Strategy](#). (PPT)

Be a Part of the StoryTelling Network

Purpose: To use storytelling as a way to share solutions to the challenges of workforce development in higher education. This *community* will span all industry sectors and may include broad scale discussions of student engagement in learning, successful completion of skills development programs, job placement, building partnerships and pathways, and others.

Join our online community forums for the StoryTelling Network at our MERLOT Voices website. MERLOT Voices is a collection of over 100 online communities forums led by a wide range of individuals and groups. We have monthly conference calls to keep our project moving forward and you can review our activities and progress at the Story Telling Community website within MERLOT Voices.

Join Us!

1. [Sign up](#) as a member of MERLOT Voices website (it is FREE and Easy).
2. You'll receive an email asking you to confirm your registration within MERLOT Voices.
3. Join the specific [StoryTelling Network Community Conversation](#)
4. Explore the discussion forums and resources and PARTICIPATE!

Be a Part of the Industry Expert to Expert Teacher (IE2ET) Network

Purpose: To support workforce development programs across all industry sectors preparing industry experts to become excellent teachers. This *community* will focus specifically on building an open access library of videos, tools, and resources for exemplary teaching practices that individuals and community colleges can easily and freely adopt and adapt to produce successful transitions of industry experts into expert teachers.

Join our online community forums for the IE2ET at our MERLOT Voices website. MERLOT Voices is a collection of over 100 online communities forums led by a wide range of individuals and groups. We have biweekly conference calls to keep our project moving forward, and you can review our activities and progress at the IE2ET Community website within MERLOT Voices.

SkillsCommons Makeover Strategy

There are a number of opportunities for collaborations, partnerships, and business relationships that can be mutually beneficial for the TAACCCT program, the grantees, SkillsCommons, end-users, and companies.

SkillsCommons has implemented a “**Makeover Strategy**” to demonstrate how the open educational resources (OER with CC BY licenses) produced by the grant projects can be revised and used in innovative ways to improve the qualities and capabilities of the instructional materials and enable successful learning. SkillsCommons has invited technology companies to participate in the Makeover Strategy and:

- **Demonstrate** how their technologies and services can be powerful instruments to “makeover” the OER and produce higher quality and innovative resources.
- **Showcase** makeovers of grantee’s materials on the SkillsCommons website, along with information about the company’s products and services.
- **Jointly Market** the makeovers as exemplary practices through a variety of communication channels and strategies, including: social media, print media, webinars, and face-to-face sessions.
- **Participate** in the Online Learning Consortium/MERLOT INNOVATE Conference (April 5-7, 2017) and other TAACCCT or TAACCCT related conferences to deliver face-to-face workshops and engagements with TAACCCT and non-TAACCCT grantees on how to apply their technologies in a makeover process.

The opportunity to participate in the SkillsCommons Makeover Strategy is open to all technology companies. To become a SkillsCommons Makeover Affiliate or Partner, the company has to submit a proposal and evidence that their services enable a TAACCCT grantee to meet the SGA requirements for accessibility, UDL, interoperability, quality assurance, innovations, improvement in learning, acceleration in development of workforce development skills.

Workshops, Consultations, and Building Sustainable TAACCCT Communities

April 5 – 7, 2017 in New Orleans, LA

OUR GOAL: Enable TAACCCT grantees to advance sustainable and transformative workforce development programs at the 2nd Annual TAACCCT Communities Meeting.

TAACCCT Program

The TAACCCT meeting is embedded within the INNOVATE Conference, co-sponsored by the Online Learning Consortium and MERLOT

CSU-MERLOT will sustain the SkillsCommons repository and services beyond the closing of all 256 TAACCCT funded projects.

SkillsCommons is building *IMPACTcommunities* to become part of its sustaining organization enabling affordable innovations in workforce education and workforce development programs to be easily and widely adopted and adapted by teachers, learners, industries, and professional organizations. This strategy will help scale the benefits of the US Department of Labor's TAACCCT investment in workforce development programs at community colleges in partnership with industries, professional organizations, and technology companies across America.

JOIN US THIS YEAR at TAACCCT@INNOVATE 2017 where you can:

- **SHARE AND CONNECT** with other TAACCCT grantees, higher ed institutions, industry organizations and technology companies at our invitation-only sessions and the entire INNOVATE Conference!
- **JOIN & LEVERAGE** the current IMPACTcommunities and help launch a new community– BE THERE AT THE START!
- **GET SUPPORT** from the [SkillsCommons Support Team](#) and others in the [TAACCCT Learning Network](#) to help you be successful on your grant!
- **LEARN ABOUT INNOVATIONS** in technology you can apply to your TAACCCT project at the SkillsCommons Makeover Studio.
- **RAISE THE VISIBILITY** of your project at a conference with over 1,100 professional attending.
- **LEARN ABOUT STRATEGIES** in online and blended learning strategies available at the [INNOVATE Conference](#) and

OER Makeover Showcases

Makeover Showcase

Home > Makeover Showcase

[Back to Showcases](#)

Explore our Showcase of SkillsCommons materials that have been made over by others. These showcases demonstrate how you can transform and enhance OER materials created by TAACCT grant recipients and others.

What Are Makeovers?

Makeovers are major changes/modifications to SkillsCommons material using innovative technologies. These makeovers have been applied to original SkillsCommons materials transforming them into interactive, accessible materials.

Examples of Makeovers

Content Makeovers

1. Adding Interactivity
2. Applying Universal Design for Learning (UDL) Principles

Packaging and Delivery Makeovers

1. Converting WORD and PDF Documents to an eBook
2. Converting WORD and PPT Documents to an Apple iBook
3. Leveraging Your Learning Management System

Content Makeovers

1. Adding Interactivity

Transforming WORD docs into interactive learning experiences.

Documents used in this makeover were contributed by [Air Washington](#). Tools used in this makeover include [SoftChalk](#) for editing the content and [ReadSpeaker](#) for adding text-to-speech support. The makeover requirements were provided by SkillsCommons to SoftChalk consultants and the SoftChalk consultants implemented the design. The makeovers were supported by SkillsCommons and AirWashington.

Lab Safety & Equipment Use

PART 1 [Original Material](#) (BEFORE) | [Makeover Implemented](#) (AFTER) See page 4 of Makeover to review interactivity, embedded videos, & self-check assessment, and page 6 for an embedded quiz.

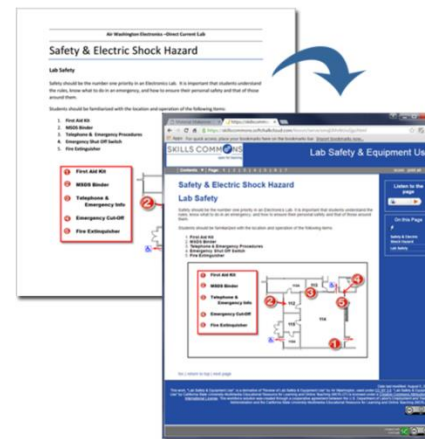

PART 2 [Original Material](#) (BEFORE) | [Makeover Implemented](#) (AFTER) See page 5 of Makeover to review interactivity & self-check assessment, and page 6 for embedded quiz.

Electricity

Want to conduct a similar makeover?

If you are interested in implementing a similar makeover visit our [How To: Create an Interactive Content Makeover](#) page.

Additional OER Resources

Finding More Open Educational Resources

Home > Finding More Open Educational Resources

Reusing OER developed by TAACCCT grantees and others is one of the major goals of SkillsCommons. TAACCCT grantees and anyone engaged in workforce development can save time, money, and effort by reusing the existing OER in SkillsCommons and in other OER collections available on the web.

To help you find more OER, we, along with Creative Commons, created a "one stop shop" for OER resources on SkillsCommons.

SkillsCommons' "One-Stop-Shop" for OER Collections

Finding more free and open resources with MERLOT

MERLOT (Multimedia Educational Resources for Learning and Online Teaching at www.merlot.org) is a free and open online library of over 70,000 free and open educational resources, with over 30,000 with a Creative Commons license. MERLOT is administered and led by the California State University, Office of the Chancellor since 1997 and has over 500 higher education institutions represented in the system and campus partners within the MERLOT Consortium. MERLOT's over 140,000 individual members continue to build the collection, with over 500 faculty, students, librarians, staff, administrators, consultants, healthcare professionals, and content developers joining for free per month.

You can find a wide range of online materials of different types – animations, assessment tools, learning assignments, mobile apps, collections, simulations, tutorials, as well as free and open etextbooks and free and open courseware at www.merlot.org. The [YouTube video](#) provides you a walk through the website.

MERLOT-Cal State Resources for Finding and Reusing Existing Free and Open Educational Resources:

- **Multimedia Educational Resources for Learning and Online Teaching (MERLOT)** has over 27,000 Creative Commons licensed materials.
- **Virtual Labs in the California State University:** Cal State and MERLOT provide a "teaching commons" for faculty and students to find virtual labs in STEM disciplines. These virtual labs range from OER, free, and fee-based resources.
- **MERLOTx** is MERLOT's new student portal, created to help students easily find resources to support their learning goals. It is a FREE, open online collection of almost 70,000 quality online learning resources across a wide range of disciplines. MERLOTx connects you to an open online community of learners and teachers from around the world, with almost 140,000 members.
- **Mobile Apps MERLOT** is a FREE, open online collection of over 4,000 downloadable mobile apps for iOS (Apple), Android, and Windows smart-phones and tablets that connects you to an open online community of learners and teachers from around the world and IT'S FREE TO JOIN.
- **California Open Online Library for Education** (www.COOL4Ed.org) is a website focused on free and open textbooks, with over 1,200 free etextbooks with Creative Commons licenses. The website also provides ePortfolios for faculty showcasing how they use open textbooks in their courses as well as showcasing "standard" courses with free and open textbooks related to the courses and faculty reviews of the quality of the etextbooks.
- **California State University's Affordable Learning Solutions portal:** Institutional initiative to significantly reduce the cost of course materials for their students with free and open educational resources.
- **Previously Recorded OER Webinars from the Innovators in Online Learning Series:**
 - Defining OER: The WHAT and the WHY – July 19, 2011
 - Finding and Using OER: The WHERE and the WHEN – August 17, 2011
 - Creating OER: The WHO and the HOW – September 21, 2011
 - Funding OER: Sustainability – October 31, 2011
- Using Creative Commons, Open Educational Resources, and Skills Commons to Enhance Grant Success (5/6/2015) [[Webinar](#)]

One-Stop-Shop for OER

One-Stop-Shop for OER

Home > One-Stop-Shop for OER

[Back to Finding More OERs](#)

CC licensed (BY) Flickr photo shared by David Ansler modified by Paul Stacey

OER come in a wide variety of types. Many educators are simply looking for individual media elements to use within their courses, such as photos, graphics, videos, and audio, that are openly licensed in a way that freely permits education use. Other educators are looking for online curriculum modules to augment their courses, complete textbooks to replace a publisher's textbook or curriculum for the complete coursework (call open courseware).

The "one-stop-shop" of OER collections is meant to provide users easy access to the wide range of OER collections. Explore and re-use the OER!

Openly Licensed Media Elements

To jump directly to openly licensed media elements to use within your courses, use these links:

FAQs for Downloading

Frequently Asked Questions (FAQs)

[Home](#) > [Frequently Asked Questions \(FAQs\)](#)

[Support Center Home](#)

Downloading Material from SkillsCommons

Q: I downloaded a folder with an extension .imsc however, I am unable to view the contents. Is it possible to view the contents of this folder?

Answer: When downloading, moving, or sending many files, it can be convenient to first compress into a single file the set of many files. This single file is referred to as an archive or "zip" file. An IMS Common Cartridge is such an archive with an extension of "imsc". Many Learning Management Systems (LMS) can export and import a course's files in this format. To view the content of the "imsc" file, simply rename the file's extension to "zip". Your operating system should then offer a way to uncompress the file, by clicking on it, through a file menu, or tool such as Winzip on Windows and unzip on a Mac. Note that to import the content into an LMS, refer to the imsc file and not its expanded folder of files.

Q: I downloaded a zip folder but could not open any of the files?

Answer: A "zip" file is a compressed set of files that have been gathered into a single file for convenience. Some browsers are configured to download a zip file and expand the zip into a folder of files while other browsers leave the "zip" uncompressed. Given a zip file, uncompress the file, by clicking on it, through a file menu, or tool such as Winzip on Windows and unzip on a Mac. A zip can contain many types of files. Some files can be viewed simply by selecting them or double-clicking on them. Other files may be specific to an application that you must have installed before the file can be launched. For example, a file with the extension "doc" likely is intended for Microsoft Word and you will need that application installed before the file can be viewed.

Q: I downloaded a zip folder with a SCORM package in it, I am unable to view the contents. Is it possible to view the SCORM package?

Answer: SCORM, or Sharable Content Object Reference Model, is a specification for how a set of files are packaged and played. A SCORM file is really an archive or compressed set of files. To view the content of the SCORM file with the extension "zip", uncompress the file, by clicking on it, through a file menu, or tool such as Winzip on Windows and unzip on a Mac. If the file extension is not "zip", rename it to "zip" first. To run a SCORM file, you need a SCORM player, which is included with many Learning Management Systems (LMS). You can also run a SCORM file in a more limited way from your web browser by clicking on the launch HTML file, which might be named index.html, story_html5.html, or similar.
